

C-6 LOT DRAINAGE. All lots within the subdivision, whether vacant, with buildings under construction or with completed buildings (occupied or unoccupied) shall be designed and constructed to provide positive lot drainage as required by the pertinent governmental authorities at the time from the rear of the lot to the street in front of the lot. This positive lot drainage to the street in front of each lot must be maintained at all times by the Owner. Driveways, patios, walks, landscaping (including without limitation, grass, bushes, trees, brick, rock or other materials), and all other portions of each lot shall be constructed, installed and shall be maintained to drain away from the main building structure, and swaled, sloped or slanted through the rear, side and front yards so as to drain to the street in front of the lot. If necessary, roof drainage will be collected in gutters and diverted toward the front of the lot. Walls or other structures should not be placed along the side of any dwelling in a manner that would block or impair drainage from the rear of the lot to the street. Any variance from this drainage requirement shall only be made with the express written approval of the Architectural Control Committee. FAILURE BY AN OWNER (INCLUDING BUILDERS) TO MAINTAIN THE PROPER DRAINAGE CAN RESULT IN DAMAGE TO THE IMPROVEMENTS (FOUNDATIONS, GARDEN AND/OR RETAINING WALLS, POOLS, WALKS, ETC.) FROM SETTLING AND/OR EROSION ON THE SUBJECT LOT AND ON SURROUNDING LOTS.

C-7 SLOPE CONTROL. As determined by the pertinent governmental agencies some lots may have designed, sloped area within the lot located to the side or rear of the lots. Soil conditions and/or storm drainage requirements, as stated by pertinent governmental authorities at the time, may dictate that the sloped areas be secured by a slope stabilization treatment and/or retaining walls. IT SHALL BE THE SOLE RESPONSIBILITY OF THE LOT OWNER WHOSE PROPERTY INCLUDES A SLOPED AREA(S) TO MAINTAIN AND/OR STABILIZE THE SLOPED AREA(S). Drainage of sloped area shall typically be controlled within the lot and drain to the street in front of the lot. However, if rear or side yard drainage easements are provided across adjoining lots connecting to subdivision streets or drainage rights of way, then the slope drainage may be diverted to flow through the easements to a connecting street or drainage right of way. Each property owner shall be responsible for maintenance of that portion of any private drainage easement within their property. FAILURE BY THE OWNER TO MAINTAIN OR STABILIZE THE SLOPE AND/OR DRAINAGE EASEMENT, IF ANY, FOR PROPER DRAINAGE MAY RESULT IN DAMAGE TO IMPROVEMENTS (FOUNDATIONS, GARDEN AND/OR RETAINING WALLS, POOLS, WALKS, ETC.) ON THE SUBJECT LOT AND ON SURROUNDING LOTS.

Storm drainage, landscape irrigation, swimming pool drainage or overflow or any other waterflow on or over the lots SHALL FLOW TO THE STREET ONLY AND NOT OVER SIDE OR REAR SLOPED AREAS WHETHER SAID SLOPES ARE WITHIN THE PROPERTY LINES OF THE LOT OR NOT. All surface drainage of the flat buildable areas of the lot shall be controlled and maintained as provided in paragraphs C-6 and C-7 herein.

Landscaping of the sloped areas at the side or rear of the lots may be permitted within the use of regional desert plants that can survive on the natural rainfall upon the slope. LANDSCAPE IRRIGATION OF ANY TYPE IS EXPRESSLY FORBIDDEN ON THE SLOPED AREAS OF THE LOTS.

C-8 EASEMENTS. Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat.

C-9 NUISANCES. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may be, or may become, an annoyance or nuisance to the neighborhood. No owner shall operate or allow to be operated on any lot or tract any electronic transmission or receiving device or equipment which interferes with normal radio, television, telephone or other electronic transmission or receiving devices or equipment of any other owners or residents in the subdivision. No owner shall erect, construct, place or permit to remain on any lot or tract any tower, antenna or similar structure which is higher than 10 feet above the highest part of the roof of the dwelling on that lot or tract. Any satellite receiving dish or similar structure shall not be visible from the street.

C-10 TEMPORARY STRUCTURES. No structure of a temporary character (trailer, basement, tent, shack, garage, barn, or other outbuilding) shall be used on any lot at any time as a

residence, wither temporarily or permanently. During the period of construction within the subdivision and until all houses constructed thereon have been sold, the use of temporary construction trailers, completed homes or model homes may be used as sales offices and construction and/or administrative offices for the builders. Upon completion and sale of all houses in the subdivision, all such use will terminate and any temporary construction trailers will be removed from the subdivision. All boats, camping trailers, recreational vehicles, or mobile homes shall be placed in the rear yard.

- C-11 FENCES AND GARDEN WALLS. No fence or garden wall shall be erected, placed or altered on any lot nearer to any street than the minimum building setback line, except that on corner lots a fence may be placed or erected along the rear lot line from the interior lot line to the side street lot line, and forward along the side street lot line not farther than within 10 feet of the front of the dwelling. This provision shall not preclude any necessary retaining walls. Masonry fences only shall be permitted across the rear of any lot, the interior lot line of any lot, or along the side yard of a corner lot where such side yards abut on a side street. It is the intent of these covenants that all property line walls shall be constructed using native red rock materials. However, if said red rock becomes unavailable or cost prohibitive, then Architectural Control Committee may approve an alternate material for the walls.
- C-12 COMPLETION OF STRUCTURES. A structure once commenced shall be completed as to exterior in accordance with the provisions of these restrictions in not more than 180 days from the date of commencement.
- C-13 SIDEWALKS. Every person constructing a residence on any lot in said subdivision shall also place a sidewalk across the front of the lot, or front parking. Sidewalks shall be placed along side yards of corner lots.
- C-14 SIGHT DISTANCE AT INTERSECTIONS. No fence, hedge or shrub planting which obstructs sight lines at elevations between 2 and 6 feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points 25 feet from the intersection of the street lines, or in the case of a rounded property corner from the intersection of the street property lines extended. The same sight line limitations shall apply on any lot within 10 feet from the intersection of a street property line with the edge of a driveway or alley pavement. No trees shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.
- C-15 MISCELLANEOUS. Except as required by ordinance during construction, no privy shall be placed upon any lot in said subdivision. No signboard may be placed upon any lot, other than one 18 inch by 24 inch sign or lot pertaining to the sale of lots or the builder's signs which may be placed upon the premises during the construction of improvements and sales of the property. Marketing and directional signs pertaining to the sale of houses may also be placed on lots other than those on which houses are being constructed. No excavations shall be placed on the said property for the purpose of obtaining sand, rock, clay, dirt, coal, or gravel, whether for profit or otherwise. No hog pen, stockyard or pen, or chicken pen will be allowed, whether operated for profit or otherwise.

PART D. ARCHITECTURAL CONTROL COMMITTEE

- D-1 MEMBERSHIP. The Architectural Control Committee is composed of Mr. Timothy C. Foster, Mr. Douglas A. Schwartz, and Mr. Robert F. Foster, all of El Paso, Texas. A majority of the Committee may designate a representative to act for it. In the event of the death or resignation of any member of the Committee, the remaining members of the Committee shall have full authority to designate a successor. None of the members of the Committee nor their designated representatives shall be entitled to any compensation for service performed pursuant to this covenant. At any time, the then record owners of a majority of the lots shall have the power through a duly written recorded instrument to change the membership of the Committee or reduce or restore to it any of its powers and duties.
- D-2 PROCEDURE. The Committee's approval or disapproval as required in these covenants shall be in writing. In the event the Committee, or its designated representative, fails to approve or disapprove plans and specifications within 30 days after they have been
